

# Trailer Maintenance Services

**Help improve uptime, and control your costs, by standardizing repairs with one national source for maintenance on your leased assets.**

Trailers need to be maintained regularly to satisfy both business and regulatory requirements. Our Trailer Maintenance Service keeps your rental and leased trailers on the road where they belong. That means better asset utilization for increased profitability, and lowered costs across your entire organization.

## Convenience

One call allows you to leverage GE's nationwide network of branch locations with hundreds of skilled mechanics ready to serve your maintenance and repair needs – at your depot or ours.

## Quality

Our mechanics are specifically trained to provide quality, comprehensive service to your trailers with our nationwide repair and service standards.

## Experience

With 50 years in the trailer industry, we currently maintain nearly 100,000 trailers, and annually perform more than 200,000 inspections, and made over 560,000 repairs...we know trailers inside and out!

## Flexibility

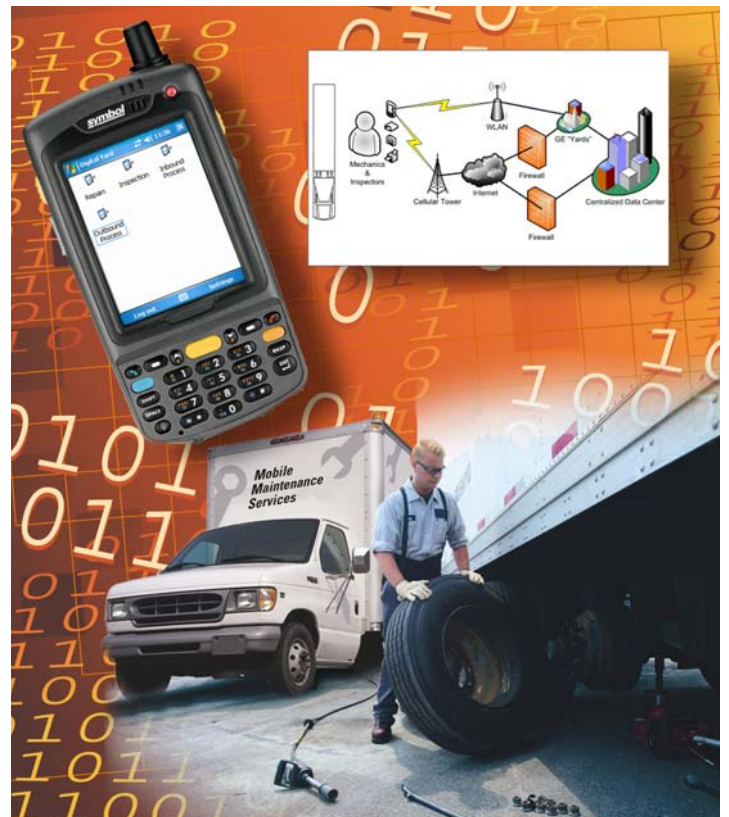

Obtain quality trailer repairs for your leased assets on your site or a customer's with a visit by our fully equipped Mobile Maintenance Services van.

## Predictable Costs

Our established repair and labor standards ensure you know the cost of a repair at GE's nationwide network of branch locations. This consistency eliminates "surprise or hidden cost" issues with your budget.

## Information

Access to repair data across your fleet is a powerful tool to predict, budget, and control your costs. GE has invested over \$10MM in the latest handheld technology and systems in order to provide you with the best maintenance data possible. You will also benefit from 24/7 online access to maintenance data with our Premier Services™ web site and a consolidated invoice.
