

Reefer Trailer Rentals

Arctic Frozen? Or just cold?

When you need a reefer trailer to carry frozen or refrigerated cargo, avoid renting a trailer that is built to a specification greater than your requirements.

Why pay for deep frozen capability when your cargo requirements are to simply to maintain frozen status, or to limit humidity?

Trailer Fleet Services has reefers that will handle all your temperature-sensitive cargo requirements. Our goal is to match the appropriate reefer spec and rental rate to your cargo requirements.

Rental Term

Our extensive inventory is available for rent daily, weekly, monthly, and beyond. We can arrange one-way moves with pre-approved drop-off within our nationwide branch network.

Trailer Fleet Services brings you more value with well-conditioned equipment, competitive rates, maintenance programs, insurance options and trailer tracking.

Rental Options

➤ Standard

Allows you to easily supplement your trailer fleet whether your need is for a month or a year.

➤ National Accounts

Enables customers with multiple locations to simplify rental transactions at Trailer Fleet Services branches nationwide, ensuring consistent quality and service.

➤ One-Way Moves

When the logistics schedule demands that you carry a load to one destination, this program provides flexibility for one-way freight movements nationwide.
